

SUMMER READING LIST FIRST GRADE

Students entering first grade will participate in a summer reading program. The goal of our summer reading program is to read for pleasure and learn to love books! Most of the children entering the first grade will need guidance from parents to read these books. Parents may read the books orally, allowing children to read the words they know. Parents should stop occasionally to ask questions about the story. You may also select books appropriate to his or her level.

Students entering first grade must read 4 of the following books and complete the book report form for 2 of those books. The books on this suggested list were chosen to cover a variety of interests and reading levels.

Have fun reading!
